## **What Types Of Treatments Do Natural Professionals Offer?**

### **Herbal Medicine**

---

Medicinal plants and plant extracts from all over the world, used according to traditional and modern scientific principles. Many plant substances are powerful medicines. Where single chemically-derived drugs may only address a single problem, botanical medicines are able to address a variety of problems simultaneously.

### **Clinical Nutrition**

---

Natural a Health Professionals use food, vitamins, minerals, enzymes, and other natural substances to stimulate a healing response. That food is the best medicine is a cornerstone of natural medicine. Many medical conditions can be treated more effectively with foods and nutritional supplements than they can by other means, with fewer complications

### **Homeopathy**

---

This powerful system of medicine is based on the "law of similars." Specially prepared dilutions of diluted substances are carefully matched with the patient's symptoms in order to stimulate the body's innate healing capacity. Homeopathic medicine is based on the principle of "like cures like." It works on a subtle yet powerful electromagnetic level, gen-

### **Aromatherapy**

---

Aromatherapy is a pseudoscience based on the usage of aromatic materials, including essential oils, and other aroma compounds, with claims for improving psychological or physical well-being. It is offered as a complementary therapy or as a form of alternative medicine, the first meaning alongside standard treatments, the second instead of conventional, evidence-based treatments.

## What Conditions Can Natural Medicine Treat?

There is a wide range of conditions than can be treated with natural medicine. These include:

- Acute conditions such as headaches, sore throats, ear infections, intestinal upsets, colds and flu, etc.
- Chronic illnesses such as migraines, musculoskeletal pain, gastrointestinal, gynecological, arthritis, heart disease, etc.
- Inherent tendencies before they become a serious illness or degenerative disease.
- Mental and emotional problems to reduce the effects of recent stresses and long-term patterns of anger, depression, or anxiety.
- Physical injury and trauma, including possible referral to appropriate specialists.

**Electric diffuser** 500ml cool mist with LED lights remote control ultrasonic essential oil aroma diffuser

The ABSVETPRO 300ml Aroma Essential Oil Diffuser is a simple electric diffuser in a field crowded with funny shapes and (very) faux wood. The medium-size tank provides water for seven hours of a strong stream of mist (though you'll need to add more oil during that time for continued scent). It lights up in seven colors, offers a timer function, and has LED indicator lights that aren't as distractingly bright as those on much of the competition. It's easy to wipe out with a cloth to keep clean.
